

## DECREE RENDERED IN NEVADA WAS NOT VALID IN NEW YORK

RENO, Nev., April 30.—With the granting of a final decree of divorce to Henry Malkan against Rose Malkan by a New York court and the consequent repudiation of the proceedings in the story of fraud and duplicity which has gone far to make Reno a by-word in the east.

Henry Malkan's decree was procured in New York in utter disregard of the previous proceedings in Nevada, but the testimony and depositions offered at the trial bring out more clearly the extent of perjury and misrepresentation to which the Reno courts were subjected. The decree, granted some three months ago, has now become effective and a matter of public knowledge and will operate to make the marriage of Rose Malkan to Harry Weiner here on March 22, 1911, a subject of criminal prosecution should the latter pair ever enter the boundaries of New York. Mrs. Malkan, defendant in the New York case, is forbidden to remarry and her Nevada decree obtained under conditions which resulted in the disbarment of her attorney, Robert Scullar, is denounced as null and void.

The history of the case, typical of the grosser abuses to which the Reno courts have been subjected by unscrupulous lawyers, appears to be a history of premeditated fraud.

Mrs. Malkan, in testifying in the

case which secured her decree on March 17, 1911, stated that she had come to Reno on October 4 of the previous year. It later developed that she arrived in Reno on March 10, a week before the decree. She testified that she did not know her husband's address and it developed that for years he has been a prominent New York merchant, conducting a well known retail book store at 42 Broadway. It further developed from the testimony in the New York case that in spite of Mrs. Malkan's profession of ignorance, she had lived with her husband in New York as late as August 12, 1910.

The testimony offered in the New York case was not for the purpose of overturning the Nevada decree for the reason that the Nevada court never obtained jurisdiction over Malkan under the New York law and he might disregard the decree altogether, but he did assist in proving the statutory charge that formed the basis of the action. The deposition of Lee J. Davis, who married Rose Malkan and Harry Weiner, was introduced in the New York case, showing the marriage on March 22, 1911. The deposition was taken in Reno before Attorney George Green of the firm of Mack, Green, Brown & Heer, and forwarded to New York.

## WORK HAS NOW COMMENCED ON TONOPAH "76"

Located between two of Tonopah's great producing mines and coming dividend payers this year, is the property of the Tonopah "76" Consolidated Mining company, of which one claim adjoins the California claim of the West End Consolidated where that company has just resumed operations in the Ohio shaft. The "76" also joins the Utah, Arizona and Colorado claims of the West End, as well as the Red Rock claim of the Tonopah Extension. The management of the "76" commenced work at the property last Saturday and is now sinking a main working shaft, 1½ feet by 7 feet in the clear, in two compartments. A depth of ten feet had been reached this morning and an effort will be made to make a new record in sinking to the 500-foot level. The shaft is being equipped with a powerful electric hoist, compressor plant and machine drills and, it is believed, the ore-bearing formation will be entered at a depth of about 300 feet. This shaft is located on the Tonopah "76" claim, where the outcropping formation carries small values in gold and silver, apparently an indication of good ore bodies at depth and, considering the location of the property, this is a most reasonable assumption. The ore bodies in this western zone are the greatest yet uncovered in Tonopah, those in the extreme western workings of the Tonopah Extension and the West End mines being among the wonders of this great camp. The Tonopah "76" is a local company and has a large cash reserve furnished principally by local stockholders. Its success will therefore be doubly welcome to Tonopah people.

## JURY NOT YET SECURED IN THE DIXON CASE

This morning the Dixon case was resumed in the district court, and Hugh Sutherland, who was called to the jury box, was excused. Five other trial jurors were examined and excused for cause. Attorneys for both sides are using the utmost care in the selection of jurors who will try the accused. The court room was filled with spectators, as the case is attracting much attention. Both sides, up to the noon hour had exhausted four of the allowed peremptory challenges.

Up to the time of going to press the jury men in the box remained practically the same as reported last evening, with the exception of Hugh Sutherland. The jury under examination was the 12th that has been called since the opening of the trial.

## "THE LIFE ON THE DIAMOND S. RANCH" AT THE BUTLER

There is quite an interest being manifested in the program for today's performances at the Butler theater. Two big features in pictures will be shown, entitled "The Life on the Diamond S. Ranch" and "The Blind Miner." The former depicts life as it was on the great western ranches years ago, showing that unique and typical life of the "American cowboy," which in a few years will be extinct and can only be seen by coming generations through the agency of the motion picture. The greatest number on the film is the champion woman bulldogger and steer thrower of the world, in action. The picture entitled "The Blind Miner" shows life as it really is in the great coal mines, taken 500 feet below the earth's surface and is in a class by itself.

Tomorrow the Heyman Sisters will, among other specialties, give an exhibition of the only true and original "Texas Tommy" dance. The management promises an hour and a half of good wholesome entertainment and predicts a crowded house.
